Immediate opening at H&T Battery Components Waterbury for a

Production Toolmaker (m/f/d)

Description:

We are looking for a proactive, self-motivated, skilled team player to join our Team. The person in this position will be tasked with troubleshooting production issues, make repairs/adjustments to tools to ensure quality standard of company products. Must be able to develop and maintain complex and diversified tools. If this description fits your experience and skillset, your job responsibilities will include:

- Work from Specifications, blueprints, sketches, and verbal instructions to construct most difficult and exacting sets of new tools, transfer fingers, and gages. Functions performed are of the highest difficulty and require a significant amount of experience and ingenuity.
- Use shop mathematics and trigonometry to establish allowances. Build tools in accordance with established tolerances.
- File, grind, contour, fit and finish tooling by hand as required. Prove out tooling with a sample run, position by position. Obtain required Quality Assurance approvals on sample. Harden tools to specifications following established procedures. Make spare parts or repair machinery as required.
- Prepare machines for production run, removing tools from the previous job, and install new tools. Check each station and make required adjustments to ensure acceptable product. Make an initial run of product, check dimensions and notify supervisor. Submit first piece to Quality Assurance for approval on new tools.
- Troubleshoot subsequent production problems. Take over the operation of the machine and make thorough observations to determine extent and cause of trouble. Adjust tooling, speeds, and feeds and/or make repairs to worn or broken tooling as required. Solicit assistance from maintenance mechanics and electricians as required. Turn the operation back to the machine operator once corrections have been made and satisfactory product is being produced.

Qualifications:

- At least 5 years of maintenance experience in a manufacturing environment.
- Excellent communication skills

Benefits:

- Medical, Dental & Vision Insurance (DOH)
- Health Reimbursement Arrangement
- Flexible Spending Account
- Short & Long Term Disability
- 401k & Profit Sharing
- Tuition Reimbursement Program
- Paid Vacations & 10 Paid Holidays
- Life Insurance
